## **DETAILED ACTION**

### ***Election/Restriction***

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
  - I. Claims 1-5, drawn to an apparatus for detecting an analyte, classified in class 422, subclass 82.05.
  - II. Claims 6-16, 17, and 29-32, drawn to a biosensor to detect ammonia, a method to detect ammonia, and a luminometer, classified in class 435, subclass 4.
  - III. Claims 18-23, 24-25, and 26-28, drawn to a biosensor to detect estrogen, a method to detect estrogen, and a luminometer, classified in class 435, subclass 7.32.
  - IV. Claims 33-35, drawn to an integrated luminometer and method for measuring bioluminescence, classified in class 436, subclass 172.
2. The inventions are distinct, each from the other because of the following reasons:

Inventions I-IV are unrelated. Inventions are unrelated if it can be shown that they are not disclosed as capable of use together and they have different modes of operation, different functions, or different effects (MPEP § 806.04, MPEP § 808.01). In the instant case the different inventions are not disclosed as capable of use together and they have different modes of operation, different functions, and different effects in view of the different components in each of

the apparatus or biosensors in each group and the different analytes that are being detected in each of the groups.

3. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

4. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

5. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(I).

6. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Chris Chin whose telephone number is (703) 308-3991. The examiner can
